

Travel Insurance

The following is a list of companies that have been recommended, by members, to the Gauchers Association. The Gauchers Association do not specifically endorse or recommend any of these companies. When contacting these companies you **MUST** specify any pre-existing medical conditions. Please check that the policy covers both yours and your family's specific needs. It is possible you may need medical screening before the insurance is approved. Please note that although these companies can issue quotations for cover they are not allowed to issue policies more than three months prior to travel.

Please do let us know of your own recommendations for travel insurance. Quotes for people with disabilities / health conditions have come down in recent years (as companies view them as less risk taking). It is good practice to get a quote from more than one company as the price can vary considerably.
